Clipping EC101 HS

OVERVIEW

- A pre-formed bag filling table for manual loading of products
- Various products: whole loaves, sliced bread. Once loaded into the bag, it is placed on the cross conveyor
- Brushes align the filled bags to ensure optimal packaging results. They are automatically transported to the clipping station
- Vacuum extraction removes excess air from the bag prior to clipping
- Castors and the compact design make the machine mobile and flexible
- Drive components are accessible by opening the machine doors
- Options: clip printing device
