Your plastic packaging solution !

Clipping EC101 IS

## OVERVIEW

- Clipping device, equipped with intermittent self-feeding. It can be easily combined with packaging machines
- Due to its intermittent operating mode, it can be used for manual loading
- There is also no need for synchronisation with an upstream filling machine. With an inclination angle of 20°, 30° or, optionally, 45° and 60°. The bags are conveyed on a side conveyor
- The suction system integrated into the clipping station removes excess air before clipping
- Outlet at the front or on the side
- Options : clip printing device, heat sealing, all-stainless steel housing

## MAIN FEATURES

- Product machine :
  - Length : 400 mm
  - Width : 200 mm
  - Height : 120 mm
- Machine dimensions :
  - Length : 1800 mm
  - Width : 1060 mm
  - Height : 1900 mm
  - Work height : 955 mm
  - Weight : 600 kg
