Your plastic packaging solution !

Clipping EC104

OVERVIEW

- Packaged products arrive on a conveyor belt from a horizontal packaging machine. They are stopped and clipped
- The clipping device is pulse-controlled and equipped with its own drive; it does not require synchronisation with the packaging machine
- The product is transported on conveyors
- Combined with a bag-inflating table, the unit is also ideal for manual loading
- The wheels and compact design make the unit mobile and flexible
- Options: clip-printing device, blowing table for manual workstation
