Your plastic packaging solution !

Sealing machine EC108

## OVERVIEW

- It consists of a heat-sealing station for filled plastic bags and a folding station for creating a fan-shaped finish
- Various products, such as whole or sliced loaves, packed in pre-formed bags, are automatically fed onto the cross conveyor, which is set at a 20° angle
- A special device creates an attractive, uniform fan-shaped presentation, which is secured with a clip. The end result is a perfectly sealed, premium-quality bag

## MAIN FEATURES

- Product dimensions :
  - Length : 100 - 300 mm
  - Max bag width : 340 mm
  - Height : 100 - 160 mm
- Machine dimensions :
  - Length : 3530 mm
  - Width : 1210 mm
  - Height : 2040 mm
  - Weight : 1500 kg
