Slicer HB

OVERVIEW

- Automatic slicer for baguettes, hot dogs and hamburger buns
- Incoming products are fed via an upper and lower conveyor and sliced horizontally using a continuous cutting blade
- The cutting position and upper conveyor can be adjusted in height using handwheels
- Products can be fed either spaced or unspaced
- The machine's construction and all cladding are made of stainless steel, which is important for long-term preservation. Easy to clean
- Option: oiling of the cut, positive double-cut slicing
