Slicer SL25

## OVERVIEW

- Automatic ribbon slicer for bread, sandwich loaves and rye bread
- The cutting process is carried out using 150-inch-long ribbon blades
- Drive drums with a special hardened chrome coating that reduces wear
- Blade tensioning device with automatic pressure regulation
- The self-supporting, torsion-resistant tubular steel construction ensures the machine operates smoothly. The large dimensions of the doors and casings allow easy access for blade changes and cleaning
- Easy replacement of blade guides
- Option: blade oiling, stainless steel version
