Your plastic packaging solution !

Bagging machine GBK240

OVERVIEW

- The machine packages and seals pre-perforated paper or plastic bags
- The open end of the bag is automatically folded over and secured with an adhesive paper label
- Automatic bag feeder with automatic stack change when the last bag is removed from the stack
- Integrated industrial labelling system
- The machine is ideal for whole loaves and sliced bread
- By systematically separating the product work area from the mechanical drive, this machine also meets cleanroom requirements
- Options: self-cleaning filter
