

Working together to design your packaging lines !

## Flowpack HPS50

## OVERVIEW

- HPS50 horizontal packaging machine with rotating jaw
- Highly flexible and user-friendly
- Quick and easy product changeover
- Easy integration into an automatic packaging line
- Designed and assembled to high quality standards
- Robust and reliable components
- Reduced operating costs
- Minimised maintenance for improved production continuity
- High-performance transverse sealing head (optional double jaw)
- Automatic film reel connection

## MAIN FEATURES

- Digital servomotors
- Integration with the line's automatic feeding system
- Total weight : 850kg
- Power : 380 V - 50 Hz 5 Kw
- Air consumption : 1NL/min
- Cold or hot sealable materials, such as polypropylene, barrier films, laminates, paper-based films
- B&R/ALLEN BRADLEY electronic platform (optional)
- Min/max dimensions :

Length : 50-600 mm

Film width : 650 mm or 800 mm

Product width : 20-300 mm

Product height : Up to 140 mm

Film diameter: 400 mm

ROTATING  
JAWS

UP TO  
50 M/ MIN
