

Working together to design your packaging lines !

Flowpack HPS80

OVERVIEW

- HPS80 horizontal packaging machine with rotary jaw
- Designed for high-speed applications and automatic lines
- Configurable with different product feeding systems
- Maximum reel width : 350 mm
- Maximum linear film speed : 80 m/min
- Rotary sealing head optimised according to product dimensions
- Outfeed conveyor with rejection system for non-compliant packages
- Product rotation system with dimensional control

MAIN FEATURES

- Digital servomotors
- Integration with the line's automatic feeding system
- Total weight : 850kg
- 380 V - 50 Hz 7.5 Kw
- Air consumption: INL/min
- Cold or hot sealable materials, such as polypropylene, barrier films, laminates, paper-based films
- B&R/ALLEN BRADLEY electronic platform (optional)
- Min/max dimensions :
Length : 50-600 mm
Product length : 180 mm
Product width : 130 mm
Product height : 50 mm

ROTATING
JAWS

UP TO
80 M/ MIN
